15C. DATE SIGNED 2/21/18	16C. DATE SIGNED 22 February 2018

1. The purpose of this modification is to make changes to MTIPS-related requirements in Section C.
2. The contract is modified as follows:

Section C.1.8.8 is modified to add Items 4-7:

- Item 4 reads “In 2015, section 223 of the Federal Cybersecurity Enhancement Act of 2015 (the FCEA), Consolidated Appropriations Act, 2016, Pub. L. No. 114-113, 129 Stat. 2242, Division N, Title II, Subtitle B (2015) (relevant portions codified at 6 U.S.C. §§ 151 and 151 note) created a statutory requirement for the Secretary of Homeland Security to “deploy, operate, and maintain” and “make available for use by any agency” capabilities to detect cybersecurity risks in agency network traffic and take actions to mitigate those risks. 6 U.S.C. § 151(b)(1). The FCEA also mandated that agencies deploy these capabilities fully on all perimeter network traffic. FCEA § 223(b) (6 U.S.C. § 151, note) (“[T]he head of each agency shall apply and continue to utilize the [above authorized intrusion detection and prevention] capabilities to all information traveling between an agency information system and any information system other than an agency information system.”). To help enable these capabilities, the FCEA authorized DHS to “enter into contracts or other agreements with, or otherwise request and obtain the assistance of, private entities to deploy, operate, and maintain technologies in accordance with [6 U.S.C. § 151(b)]”—the legal provision authorizing the capabilities. 6 U.S.C. § 151(c)(2). And, it provided that “[n]o cause of action shall lie in any court against a private entity for assistance provided to the Secretary in accordance with this section and any contract or agreement entered into pursuant to [6 U.S.C. § 151(c)(2).”
- Item 5 reads “In accordance with 6 USC 151(e)(1)(B), the contractor may not use any network traffic transiting or traveling to or from an agency information system to which the contractor gains access in accordance with 6 USC 151 for any purpose other than to protect agency information and agency information systems against cybersecurity risks or to administer a contract or other agreement entered into pursuant to 6 U.S.C. § 151 (c)(2) or as part of another contract with DHS.”
- Item 6 reads “The contractor shall comply with DHS policies and procedures supplied by DHS, including those governing the operation of the intrusion detection and prevention capabilities provided pursuant to this contract, including DHS information handling guidelines regarding information obtained through operation of the intrusion detection and prevention capabilities provided pursuant 6 U.S.C. § 151.”
- Item 7 reads “The contractor shall verify in writing with DHS before providing EINSTEIN related capabilities, including as part of MTIPS, IPSS, MSS and Traffic Aggregation task orders to an Agency, that the Agency has signed the required Memorandum of Agreement (MOA) relating to deployment of EINSTEIN with DHS. This MOA is a legal requirement for DHS furnished capabilities which include EINSTEIN.”
- Section C.2.8.4.1.1.1 is modified to remove Sensitive Compartmented Information Facility (SCIF) from the diagram.
- Section C.2.8.4.1.4.1, Item 4 has been deleted and modified to read “Reserved.”

- Section C.2.8.9.1.4, Item 30, is modified to read "Provide an ICD 705 Sensitive Compartmented Information Facility (SCIF) and personnel with TOP SECRET/SCI clearances. Facility size, number of personnel and other details to be provided with DHS Task Orders."

3. The estimated dollar value of the contract remains unchanged.
